RESPONSE

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Official Action of November 6, 2002, Applicants elect with traverse the claims of Group I (i.e., method Claims 1 to 37).

It further is respectfully is urged that the subject matter of microparticle Claims 38 to 42, 45 to 59 also be examined at this time. The Examiner is urged to use discretion under 35 U.S.C. §121 and withdraw the restriction requirement since the search and examination of all claims can be accomplished without serious burden. Such examination is urged to make possible increased efficiency for all concerned.

The presently claimed microparticles are not disclosed or suggested in U.S. Patent No. 4,822,535. No parenterally administrable starch microparticles are contemplated in the patent. In the present invention the microparticles contain a biologically active substance in essentially non-chemically complex form and in the form of solid particles having a mean size of 0.05 to 30 μ m. In U.S. Patent No. 4,822,535 the active ingredients are encapsulated in dissolved form.

The examination and allowance of the entire Application are respectfully requested.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
